Notes for JAMES A. MCCLENNY:

Myra Chambers states James's death certificate states he was a carpenter and was born in North Carolina. His birth certificate states that his mother and father were unknown. The information on the certificate was provided by his son-in-law, James David Chambers.

Daisey McClenny's (James's daughter) death certificate indicates James was born in Mississippi. This information was provided by her daughter, Etta Chambers. The certificate further indicated that Daisey's mother was Betty Tipton who was born in Mississippi. Myra Chambers believes the name to be in error as the Tipton's were from the Chambers side of the family. Myra Chambers also believes, Doris Williams, born in Indiana, may have been James' wife.
